October 13 Set For L.G. Incorporation Vote

Candidates For Council May File For Race Now

Lemon Grove voters can decide October 13 if they want their community to become San Diego County's 14th city.

They will also vote on candidates for a five-member city council.

Polling places will be designated later but candidates for council may register now with the Registrar of Voters. Candidates must live within the boundaries of the proposed city to be eligible. Deadline for filing is noon August 20.

The County Board of Supervisors set the Oct. 13 date Tuesday after the boundary commission approved a revised map which had been reduced from five square miles to about 2½. Proponents said Tuesday that because of the smaller size, the city would be required to give less services. Most of the city income would be from sales tax money collected by the state rather than property tax, they said.

Public hearings, concluded last week, resulted in approval of exclusions for chunks of area in the west, northwest, southeast and northeast corners of the proposed city. The estimated remaining population is set at 21,757.

Opponents in the west and northwest objected strenuously during exclusion hearings and attempted to block the election but could not get more than 30 per cent of the required amount. 50 per cent is needed.

Sample ballots with arguments for and against incorporation will be mailed voters if the information is filed. The registrar will set a deadline for filing the material.

Proponents claim the community would not have another free chance to vote on incorporation. The newly formed Local Agency Formation Commission would have to approve the issue before an election could be mounted.

Lemon Grove has twice before turned down incorporation. In 1955 the vote was 2,180 to 1,607. In 1958 it was 2,783 to 2,301.

The city would be larger than five other cities in the county. It would be about the size of Vista or Escondido. It would be bounded by incorporated cities on all sides except for the exclusions and the unincorporated area on the east.

The city would be governed by general law. Ten other cities are similarly operated. Three are charter cities. Those with charters have additional powers.

Lemon Grove, as a city, would be empowered to levy a property tax. It could assume some of the functions now performed by special districts. Whether it would or not would be determined by the city council, five persons yet to be elected.

Lemon Grove residents get services from the County and from districts such as fire and sanitation districts. Under cityhood, the water and school districts would remain unchanged. Planning, building inspection and licensing could become localized. Police service could be contracted for from the sheriff's department.

Property taxes average $7.70 for each $100 assessed valuation but there are various code areas in Lemon Grove which change the total.

Proponents for incorporation, headed by Attorney Frank Armstrong, and real estate man Ray Brehm, (who was cut out of the city by exclusions) urge all residents who have an interest in serving on the council to file for the race.

Proponents have not announced whether there will be public meetings regarding incorporation or not.

PREVIEW GIVEN OF HEARING ON NEW FREEWAY

Jake Dekema, district engineer of the State Division of Highways, presented alternate plans for Legislative Route 125 to the Lemon Grove Men's Club Friday.

The road will connect Blossom lane near Mt. Miguel high school with Highway 80 at Grossmont Summit.

The discussion was a prelude to the public hearing scheduled for Spring Valley Aug. 18 in the auditorium of the Spring Valley Junior high school, 3900 Conrad dr.

Dekema said the 4.4 miles of roadway will cost $25½ million regardless of which route it follows. One plan follows Sweetwater rd. several hundred feet to its west, and picks up Highway 94 north of Broadway. The other follows Bancroft dr., a few hundred feet to its east and joins 94 just before it reaches Lemon ave.

A vote was taken among the membership of the club Friday and 80 per cent of those voting were of the opinion that the Bancroft route would be preferable.

John Bridger presided because of the absence of John Dail.

The program this week will be provided by Burty Richie, a Negro who has distinguished himself as a law enforcement officer and now as an attorney. He will view the effect the race riots will have on San Diego.

The meetings of the club are held every Friday noon at Michael's.

GOLF RANGE OKd NEAR MT. MIGUEL

SAN DIEGO (CNS) — The County Planning Commission Friday granted permission to the Sum Golf Driving Range for a range across Sweetwater rd. from Mt. Miguel High School although Mr. Ruth Darst, 8620 Gowin st., Spring Valley, objected.

Dr. Cortez R. Hall spoke for the driving range. It will be on a 1169 by 420 foot parcel of land just south of Blossom lane. No one protested that the lighted facility would be a nuisance although several houses to the south have their back yards abutting the range.

Mrs. Darst said that the developers had already filled in a small drainage ditch across their property. She said that the channel had been blocked once before and that the diverted rain water washed out a six-foot fence to the north of her property. (She said she and her husband owns houses in the section.)

The commission put in the condition that the drainage will have to be approved by the county before the range can be placed in operation.

The planning department staff recommendation had been for denial on the grounds that the range would be detrimental to the adjacent residential subdivision in that it would be a nuisance.

Hall said that the facility would include a parking lot for 40 cars, minature golf, patio and putting green.

MRS. TURLEY WINS $80

Helen Turley of 7648 Church st., Lemon Grove, was judged winner of the Lemon Grove Merchants weekly Treasure Chest contest held Saturday.

Mrs. Turley won $80 and her entry was cited early in the contest; only one or two others were called earlier—contestants must be present to win the prize.

Competition is conducted every Saturday at 11 a.m. in the plaza at the site of the landmark lemon. Entry blanks may be obtained from any business firm in Lemon Grove displaying the Treasure Chest placard.

The project is offered by the Merchants Division of the L.G. Chamber of Commerce.

Speaker Says Lemon Grove Future Bright

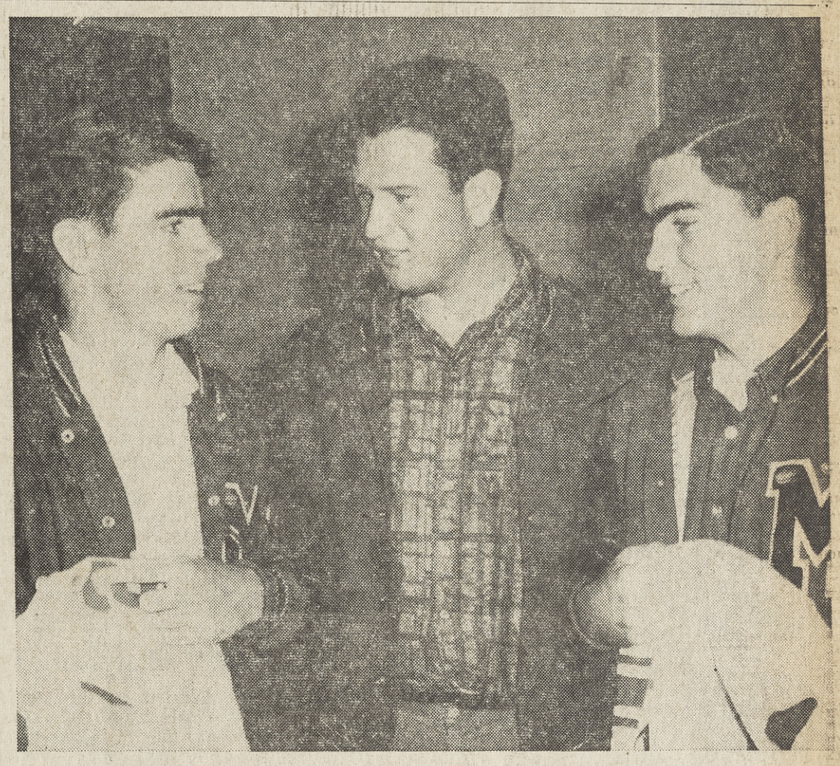

Less than 20 persons attended the first evening meeting of the L. G. Chamber of Commerce Tuesday at the L.G. Junior High School.

As disappointing as the crowd was, the program was good. Hugh Hall, vice president of the San Diego Chamber of Commerce told the group that Lemon Grove, "an attractive community, had much to look forward to economically".

He told how the "Try San Diego First" program had helped revitalize that city and recommended that Lemon Grove do likewise.

A giveaway of $50 from the Lemon Grove Merchants Division Treasure Chest was won by Walter Denlinger, 8256 Adams st., Lemon Grove.

The program was presented by Dr. Sam Smith, a director of the L.G. Chamber. Forrest Baxter, Chamber president, presided and conducted the giveaway.

Lomita Village Tot Saved From Ice Box Death

A two - year - old child was saved from death in an unused refrigerator in a vacant house Tuesday in Lomita Village.

Wayne Whittle, son of Mr. and Mrs. W.W. Whittle, of 627 Sunnyside ave., was found in the refrigerator after the frantic mother called the neighbors for help.

The boy was found by Joe Parillo, of Clairemont, who was working in the yard of his daughter's house at 636 Sunnyside. He remembered there was a refrigerator in the garage of a vacant house across the street.

He opened the door of the refrigerator and the boy fell out, he said. He applied artificial respiration and soon the child responded.

It could not be ascertained how the youngster got into the refrigerator.

Sanitation District Taxes, Budgets Set

SAN DIEGO (CNS) — The County Board of Supervisors, acting as the board of directors of sanitation districts, this week approved the operating budgets for several East County Districts and was given proposed tax rates by the Department of Special District Services.

The budget for Lemon Grove was set at $112,645 at an estimated rate of $.332 per $100 of assessed valuation.

In Spring Valley, the budget is the highest of any county administered district at $825,512 but the tax rate is only $.278. Joe Rushing of the department said that this district maintains a low rate but assesses a sewer fee which raises most of the money.

Better Sign Controls Possible

National City Planning Commissioner D. L. Torbett told Lemon Grove a little about itself and its future — although it was made obliquely. He was talking about the demands for more signs in National City.

He was of the opinion that the rules controlling the erection of signs in National City should not be watered down. Up for a variance was an airlines firm request for permission to install a particularly large sign. The request was rejected.

Then Torbett said, "Drive through Lemon Grove and on to El Cajon. You can't see Lemon Grove for the signs. But in El Cajon you can see the trees, the surrounding hills and the city.

"Signs are strictly controlled in El Cajon," he concluded.

Sign control is one of the minor benefits incorporated cities have. If a community becomes an eyesore because local controls tailored to the needs of the community are not available, the whole community suffers. And a happy community is one in which the residents are proud of it.

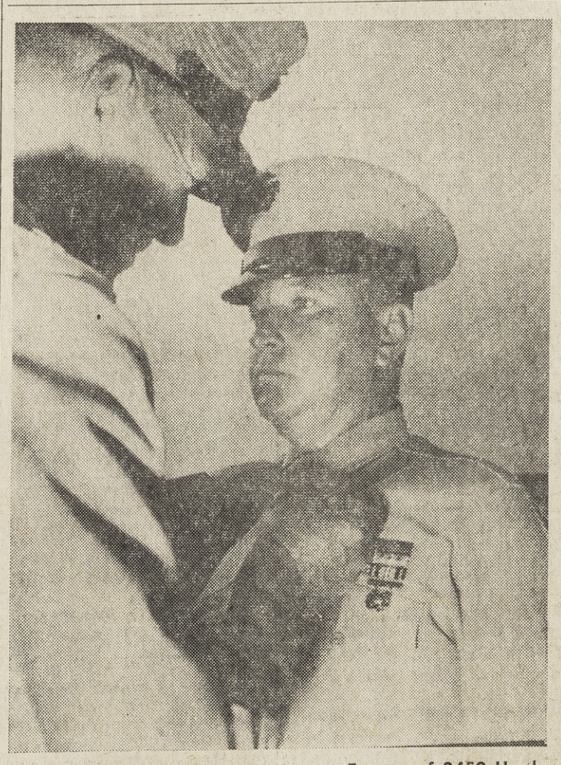

Lemon Grove will have an opportunity to incorporate in the next 90 days. Voters should be aware that sign control is just one of the benefits a home-rule city has to offer.

Stop Sign Removal Delayed By Supervisors

SAN DIEGO (CNS) — The County Board of Supervisors Tuesday revoked its action of last week to remove the stop signs from the intersection of Massachusetts and Central avenues but leaving stop signs on Central.

Second District Supervisor David Bird was voted down at the last meeting but his motion to delay the sign removal carried Tuesday.

The change had been recommended by the Traffic Safety Committee as Massachusetts is currently undergoing improvement and carries about five times as much vehicular traffic as Central.

Bird said he had a petition from 16 residents expressing fear that school children would be endangered if the Massachusetts signs were removed. He said the signs should be retained until the present work is completed.

Local Firm To Expand

Expansion of a Lemon Grove business firm was announced here this week.

Al Weedman, who has operated Weedman's Carpets at 3331 Imperial ave. for the past three and a half years, said this week that he had acquired the store building next door. The building was formerly occupied by Ken's Barber Shop.

Weedman said that he and his wife Beverly will expand the business to include furniture, drapes and lamps. Mrs. Weedman is a professional interior decorator.

Remodeling is under way to remove part of the partition between the two stores so that the operation will be contiguous. The added operation will be Weedman's Interiors.

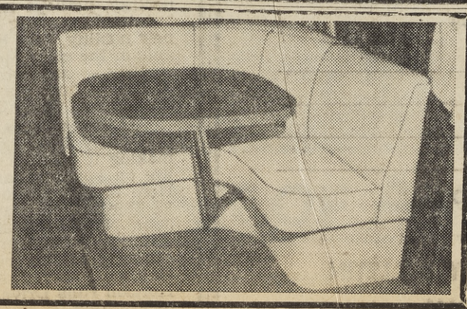

Weedman said Wednesday "we simply outgrew our floor space. People in this are are getting more and more affluent and demand more services for their homes. We want to be able to meet these demands.

"We have grown also because we identify ourselves with the Lemon Grove lemon landmark. That's a great boon for anyone in business here.

"The coming of the Thrifty Drug store, a junior department store, the first major retail outlet to be located in Lemon Grove, will give added impetus to the bettering business climate here. Thrifty will draw people here who might otherwise never have occasion to come to Lemon Grove.

The expanded location is at 3327 Imperial ave. as well as at 3331.

Social Security Question Box

By Guy Deeks

Do you know what your rights and obligations are under Federal Social Security laws? Typical questions will be answered in this column. This is a public service of this paper in cooperation with the San Diego District Office of the Social Security Administrtion.

Question: I have had to stop working because of a stroke. I have a wife and three youngsters to support. If I qualify for Social Security payments as a disabled person, can I get some extra help for them, too?

Answer. You can. If you become entitled to disability benefits, your wife, and children can probably get dependent's benefits, also.

Question: How can I find out if I have received credit for all my work under Social Security.

Answer: The Social Security Administration District Office in San Diego has a free postcard form that you can send in to have your records checked. The postcard is pre-addressed.

S.V. Developer Charges 'Socialistic System' Run By Planning Commission

SAN DIEGO (CNS) — The County Planning Commission Friday was accused of running a "socialist system" to "choke a person" attempting to get land re-zoned in Spring Valley from single-family residential to R-3 (multiple family) and commercial.

The commission had just refused the rezoning at a second meeting and a good deal of discussion with Robert K. Whitney of Whitney Enterprises representing landowner Carmen T. La Salle. The 12½ acres lies between Central and Bancroft north of Lamar.

The commission had earlier agreed that there was no particular objection to C zoning on Bancroft but it would not grant the R-3 zoning because it felt the county would lose control of a drainage problem in the section. An additional reason was that Whitney could construct his condominium-style subdivision under R-2 (duplexes on 6,000 square foot lots) if he filed a "Neighboring Housing" may and worked from it.

Neighboring housing generally allows much latitude in interior setbacks and small yards but with the remaining area in ratio to housing-to-open-space the same that would occur in a normal subdivision.

Whitney was apparently ready to accept R-2 if the commission would also give him the neighborhood housing permit, which, he was told several times, could not be done because he had not filed such a request.

The commission and Whitney seemed to get further and further apart during the discussion, with Whitney calling the R-2 method "clumbersome" and the commission wondering why Whitney did not accept the R-2 and file for the permit later. Chairman C. J. Martin even asked Whitney why he had not filed for the permit since the previous meeting.

The developer was obviously upset at the vote when he said, "I don't see why you take a person and choke him (from developing property)".

The commission went on to the next item of business.

The DIMMER VIEW

(Continued)

If ever there was an apt wedding, for better or worse, it is the union of the teevee and politics.

It may be true that newspapers didn't delete regularly scheduled features to bring you the Republican convention, but teevee, in spite of program cancellations, brings living and breathing immediacy to viewers.

Maybe it brings so much of the good things that it snowballs. Some politicos are already complaining about a snowball reaction.

The snowball reaction is when voters on the west coast switch to a winning candidate after the east coast election results are reported. Theoretically, a teevee viewer will get up from his evening can of beer and go to the west coast polls and vote just to be able to say he voted for the winner. The time variances being what they are between the coasts gives the voters here plenty of time to see how the cookie is crumbling.

There is another school of political thought which suggests that the voters won't leave his teevee set to vote if his favorite candidate is winning in the east. These people are of the opinion that the trip is wasted to cast a vote for a candidate that is stacking up a healthy majority without his help.

While these two philosophies cancel each other out, there is a move afoot to prevent election results from being disseminated until the last polling place in the nation is closed. Each of the two above mentioned camps has the feeling that the other has an advantage. How they would establish controls will make an interesting study.

They might try censorship. That hasn't been tried here since the Cuban calamity. We don't count South Viet Nam because we believe nobody (including the N. Vietnamese) knows what is happening there.

We're for holding the returns back a day. It won't make any real difference to us but the candidates couldn't bear it. As suspicious a cult as they are, they would accuse each other of every crime from padding the county to mopery.

Indeed, 24 hours of blackout could result in armed conflict between the camps. We can see the headlines now: "88 Politicians Die In Birmingham Election Blackout Riot".

Multiply that by the number of sensitive election centers in the nation and you might have a staggering number of dead politicians on your hands.

And that's the best way to have some of 'em!

A Good Job For a Service Club

The other day Ben Geerds, executive director of San Diego County Safety Council, reported that high schools are only doing "half a job" in driver education training.

Geerds' charge is only half the charge. He isn't telling the whole story.

High schools, we believe, do a pretty good job with the material available. Schools in this area start driver training in grade 10 which is to say that the raw material going into the program are high school sophomores. These youngsters can be taught the rules and regulations of auto laws but their driving attitude has long since been formed.

Driver education ought to start not later than the first year of junior high school. Kindergarten training has been tried and pronounced successful. Anywhere along the line that these youngsters learn to respect the driving rights of others — and learn how to drive without being in a perpetual fit of anger and hatred — would be effort well spent.

Such training could brush off on the parents too. Most of them are not aware of having an undesirable driving attitude. A word or two from Junior or Mary might be all that is needed to correct this wide-spread fault.

Captain Roland Gautsche, chief of the California Highway Patrol in this area, told a meeting of civic leaders here recently that his officers can enforce laws. But they cannot enforce a mental attitude which causes a driver to perform his duties while charged-up emotionally, he confessed. He was of the opinion that driving attitudes had to be taught before high school age.

If such a program is undertaken, either on a local level or a state level, who would be responsible for the training material and enforcements of the training. Would it be the California Highway Patrol? Or the State Department of Motor Vehicles? Or would it become a part of our school curriculum? None of these wants to take on the job. Yet, every mother's son member of these groups would admit to the necessity of such a program.

The impetus must come from the public. You know people are disorganized. But service clubs could help organize the public so that a loud voice could inform our lawmakers that driver education is wanted earlier than high school.

Such a project would be comparatively simple for a service club and it would save an untold number of lives and millions of dollars in property damage.

We can think of no more fitting place for the project to start than right here in this our community.

THE LORDS OF THE LAND

By Joan Imig

We don't have nobility among us in the decades of the sixties, not in America, — but we do have a new kind of nobility, perhaps not descendants of Kings and Queens, but surely ranking high in the affairs of the people. Our new nobility, here in the San Diego area, are not descendants of the early Spanish Dons, who came here in the 18th century — and introduced charming customs and a way of life, — but they do have one thing in common. They are Lords of the Land — Barons of the good, green earth.

If you want to see their holdings take a good look at the Valley from Lemon Grove to Rancho Bernardino — making it possible for those so inclined to live the good life on spacious land and in gracious, rambling homes. Here in San Diego County such a Lord of the Land is El Hardine Faraday sub-division, under the direction of John N. Mortenson, specializing in spacious homes for gracious living, homes designed for comfort and the western way of life, right on our own homefront. The El Hardine Faraday sub-division is located at Avocado and Horizon Hills Drive, on the west side of Mt. Helix section of El Cajon.

DOUBLE CHECKING — Charles Chamberlin, left, of La Mesa and Don Cox of Lemon Grove check and bag groceries during a summer school course in food retailing being given by the Grossmont High School District. The class used equipment loaned by local companies. Specialists will speak to the class on labor-management relations, personnel and advertising.

School Study Decisions Deadline Here For Students

By Education News Service

You'd better get moving!

That's the advice of educators to qualified high school seniors who have not yet applied for admission to the college of their choice.

Most educators agree that "the last safe date" for application, particularly to a major college, is November of a student's senior year.

If you're a high school junior, you can start bracing for the college entrance tests you'll be bound to take this year. And if you're a younger student — even down to the seventh grade — there are things you can do now to ensure a college education in your future.

As students prepare to enter the 1964-65 school year, the California Teachers Association (CTA) repeats advice it offers to parents and students each year. Here are some ideas the CTA suggests to help achieve college goals:

Seventh Grade

Student, parents and school staff should work together on academic goals necessary to qualify for college, including consideration of whether the student should go into any advanced classes in the eighth grade.

Eighth Grade

Decide on ninth-grade courses — they will begin to govern the type of college to which the student can apply.

Ninth Grade

By this time it should be possible to interpret the student's abilities in various subject areas. They may point more clearly to a career choice, and therefore a college choice.

Tenth Grade

At this stage in the student's development his school should be able to recommend subject areas of concentration for college-bound students — more math, more science, more languages — so his college application will be accepted.

Eleventh Grade

This is the year the college preparatory student should start studying college catalogs, reference books and materials explaining the tests he may take — Preliminary Scholastic Aptiture Test, National Merit Scholarship Qualifying Test, or others. These tests give a preliminary look at how the student has been doing. At the end of his junior year, the high school determines his class standing. The standing and test scores will usually be included in any transcript submitted for college entrance.

Senior Year

More tests are given. One is the Scholastic Aptitude test, also known as the College Boards. It is used in determining National Merit Scholars (NMS) from semi-finalists chosen through the NMS Qualifying Test the previous year. By the senior year, the student must decide where he's going and he should have applied for entrance to the colleges in which he's interested. And he should understand the financial resources needed to pay the costs of college — up to $12,000 for four years at a private college.

What Can Parents Do?

Encourage each child to read widely. Take him to the public library for library cards. Set an example by following good reading habits yourself.

Provide a well-lighted, quiet place for study.

Make sure your youngster's course of study, especially important in the 9-12 grade span, is suitable for his plans now, yet fexible enough to allow him to shift gears if he changes his mind.

Remember, pupils need rest and relaxation, too. Don't make them concentrate all their energies on study.

Students Set Up Shop In Summer School Class

A seven - week summer school course in food retailing is being given now by the Grossmont High School District. The class meets from 8 a.m. to noon daily at El Capitan High School.

The 20 students in the class have been selected from the seven district high schools.

Conducting the class is Easa Harb of Spring Valley, a business teacher with 15 years of grocery merchandising experience.

The class has been set up with five check stands complete with register and scales as well as shelving, and display bins. and marking table. This equipment was loaned by local firms.

Store managers have helped to plan the curriculum which includes bagging, checking, housekeeping, stocking pricing, receiving, ordering, and display. Specialists have been called in to speak on such areas as personnel, labor - management relations, and advertising.

Films and special materials will present information on special areas such as dairy products, meats, produce, and customer relations. Students will go on field trips to a grocery store warehouse, a local dairy processing plant, and a produce market.

After three weeks of instruction, the students will have a chance to prove themselves on the job.

Part - time jobs in local markets have been obtained for many of the boys.

Store managers who wish to know more about the program or who wish to employ students part - time after school can call El Capitan High School 443-1083. The Grossmont Youth Placement Office, 465-3131, also has a list of the students in the class and can contact them for job interviews.

Two Brothers Help Team Win Top Place

Two brothers who learned baseball fundamentals while playing in the Minors of the Cajon de Oro Little League of Spring Valley three years ago are at it again. John and Vonn Ritter, who are former Cardinals of the C.D.O. League, played key roles over the weekend as the Lisan Corp. defeated Ballentyne Buick twice to win the Singing Hills Little League championship.

Vonn singled and scored the winning run on brother John's deep sacrifice fly in the third extra inning of the second half playoff game Thursday. The score was 6 to 5.

Vonn scored what proved to be the winning run Saturday, and John doubled home two more as Lisan beat the first half champions, Ballentyne, 5 to 0, for the full season title. The brothers are all-star selections.

Lemon Grove All-Stars Defeat Chula Vista National All-Stars

Randy Houk pitched a perfect game with 12 strikeouts to give the Lemon Grove Little League All Stars their first win in Area 2, District 42 Tournament play last Friday at Lester Field, Vista La Mesa.

They defeated the Chula Vista National All Stars 7-0. Under the guidance of Manager Gene Farnum and Coach Jack Schmitke, the All Stars kept their bats busy getting 9 hits. Singles were scored by Jerry Misenheimer, Sonny Taylor, Mike Swan, John Binkele (2), Chris Ireland (2), andd oubles by Tim Halley and Freddie Taylor.

Their enthusiastic fans were on hand again Saturday, when they defeated the Encanto All Stars 5-1, with Pitcher John Dobransky striking out 8 and giving up 4 hits. The Lemon Grovers had 5 hits with a double by Gary Harris and singles by Sonny Taylor, Mike Swan and Jerry Misenheimer (2). This win gave the Area 2 Championship to the local All Stars and advanced them to the District 42 Tournament.

Lemon Grove Little League will be host for District 42 Tournament play at the field in Monterey Heights on July 30, 31 and Aug. 1. The local All Stars will meet the San Diego American All Stars in the first game of district competition on Thursday at 5:30 p.m.

National City American and South Bay All Star teams will play Saturday at 1:30 p.m. with the victor being District 42 Champion and advancing to the Sectional Tournament to be held at Imperial Beach August 5 through 8.

Route "C" Gets OK From School Board

The La Meso - Spring Valley School District board of trustees, Monday night went on record as favoring Route 'C' of the proposed freeway from National City to Highway 80. The route comes up Sweetwater rd. from the south of Spring Valley, cuts west to the property of Saint John of the Cross Catholic Church and onto the present Highway 94 freeway.

The board contended that Route 'B', which would go east of Sweetwater rd., and east of Bancroft, would be too noisy for the schools and would interfere with the existing enrollment district. Route 'C' they claim is the natural boundary of the school district.

The board also set in motion a plan to purchase 15 acres of land of the Conrad gravel pit, on north Conrad dr., for a new elementary school. The property will cost $74,285. The State Allocation Board already has approved the purchase.

RHYTHM RASCALS — Kristine Clark, Jack Eskridge and Jimmy Stewart, the Rhythm Rascals, have returned to their Spring Valley homes after a two-week tour to Corpus Christi, Texas. The western group formed two years ago and has been playing locally since then.

SV Western Trio Returns From 2-Week Texas Tour

The Rhythm Rascals, a local Western trio, have just returned from a successful two weeks tour, which took them to Corpus Christi, Texas. The group, comprised of James Stewart, lead guitar, Kristine Clark, rhythm guitar and vocalist, and Jack Eskridge, drums, are directed and managed by Mrs. Paul (Ann) Clark of Clark's Music Studio in Lemon Grove. Mrs. Clark and her husband took the trio on the trip.

Jack Eskridge is 16, Kristine Clark, 14, and Jimmy Stewart, 12. Jack is a 1964 graduate of Mt. Miguel High School and the other two are at Spring Valley Junior High. The three, all students of Mrs. Clark, were organized at the studio two years ago. Since then they have been playing jobs in this area. They are strictly Western and cater more to the adult crowds.

The recent tour was their first out-of-town work. While in Corpus Christi the Rascals entertained the Folk Music Society.

On the homeward trip the Rascals played in El Paso and several other communities, including Wilcox and Eagles Pass, Ariz.
